

INFUSORIUM WATER FOREST

SANTA-MONIKA

IDEA

FORM

USE

INFUSORIAN BREATHING TAKES PLACE THROUGH BODY COVERS. OXYGEN ENTERS THE CYTOPLASM THROUGH THE ENTIRE BODY AND OXIDIZES COMPLEX ORGANIC SUBSTANCES, WHEREBY THEY ARE CONVERTED INTO WATER, CARBON DIOXIDE AND SOME OTHER COMPOUNDS. THIS RELEASES ENERGY, WHICH IS NECESSARY FOR THE LIFE OF THE ANIMAL. SIMILARLY, THE PROJECTED COMPLEX - AN ARTIFICIAL FOREST THAT GROWS OUT OF THE WATER SURFACE AND CONSISTS OF A MAN-MADE TREES THAT GENERATE AS NECESSARY TO MAN AS OXYGEN AND WATER AND ENERGY.
