

Gesture For Future | A R C H I T E C T U R E

WHERE WOULD WE BE WITHOUT TREES? THEY'RE SUCH AN IMPORTANT PART OF THE NATURAL WORLD. IT'S NO SURPRISE THAT TREES INSPIRE ART, DESIGN AND ARCHITECTURE WITH THEIR ELEGANCE, STRENGTH AND SENSE OF HISTORY.

ADAPTING THE FEATURES FROM THE NATURE TO CREATE AN INFRASTRUCTURE. THIS STRUCTURE IS INTENDED TO PRODUCE AND CAPTURE ENERGY THE SAME WAY AS THE TREE, WHICH ARE NATURALLY RENEWABLE ENERGY.

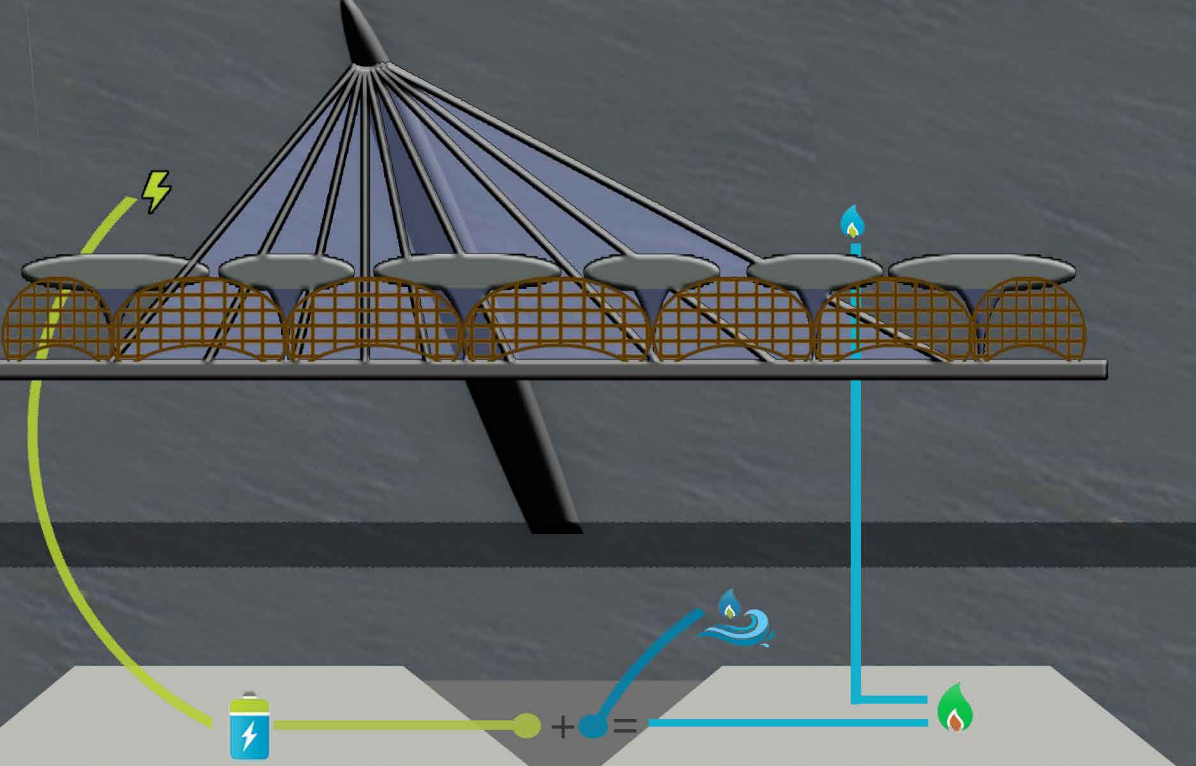

TREES ARE MADE AS LANDMARKS IN THE HISTORY FOR THEIR LONG LIFE AND SO MANY CULTURAL AND SOCIAL HAPPENINGS AROUND THEM, SO THE PLACE WE DESIGN SHOULD BE OPEN TO THE PUBLIC AND THE VISITORS SHOULD ENJOY AND FEEL THE DESIGN ELEMENTS

FOLIAGE LEAVES ABSORBS SUNLIGHT, AND TRANSFERS WATER TO THE SOIL BY ITS SUPERHYDROPHOBIC CHARACTER.

TREES INCREASES THE WATER TABLE, BY COLLECTING RAIN WATER. SAME METHOD IS USED TO COLLECT RAIN WATER AND THUS MAKING THE VISITORS TO UNDERSTAND AND FEEL THE NEED OF RAIN WATER HARVESTING.

TRUNK, BRANCHES HELPS MAKES THE STRUCTURAL PART OF THE TREE AND SO THE FORM IS DERIVED AND DESIGNED BASED ON THIS FEATURE.

TREE HAS VARIOUS FEATURES BUT IT ACTS A SINGLE ENTITY AND MAKE THEM WORK AND IMPROVES THE QUALITY OF NATURE, WHAT IF THE SAME FEATURES ARE ADOPTED FROM THE TREE AND MADE THEM AS DESIGN ELEMENTS WHICH WORKS TOGETHER AS A SINGLE FORM TO IMPROVE THE LIFE OF MANKIND.
