

WIND BLADES

THE 33 WIND BLADES FORM THE BACKDROP TO THE INSTALLATION. THESE ARE A PLAY ON THE WORK DONE BY DYSON ON THEIR INNOVATIVE FAN, SCALED UP TO 80 METERS WITH THE UNDERLYING CONCEPT REVERSED.

THE BLADES FACE INTO THE PREVAILING WIND AND AIR PASSING THROUGH THE AIRFOILS IS CONCENTRATED AND GENERATES A SUCTION DRIVING TURBINES LOCATED IN THE BASE.

THE STRUCTURES ARE TO BE USED AT NIGHT AS PART OF A SON ET LUMIERE SHOW.

MANGROVE TOPIARY

AN HOMAGE TO THE NEIGHBORING HOLLYWOOD SIGN BOTH IN SCALE AND INTENT BUT DELIVERED THROUGH A CAREFULLY MANAGED AND MAINTAINED VEGETATION MEDIUM, MANGROVE TOPIARY

THE MANGROVE TOPIARY IS SEEN AS NOT ONLY AN IMPORTANT BIODIVERSITY ELEMENT BUT ALSO AS A VALUABLE BIOMASS SOURCE AND IS TO BE HARVESTED AND USED AS AN OFFSITE CARBON NEUTRAL FUEL STOCK BY THE MUNICIPALITY.
