

THE FLOATING JUNGLE...

The floating jungle consists of 34 GREEN SPHERES and 44 BLUE SPHERES, floating on top of the water, creating an iconic and never before seen landmark, which not only produces clean energy, but cleanses and filters the air we breathe and the water we drink and creates an iconic attraction.

Converting seawater to potable water for watering the GREEN SPHERES

Converting wave energy to electricity for lighting up the GREEN SPHERES

Providing drinking water with the help of the BLUE SPHERES

The green spheres providing electricity for the city of Santa Monica
