

Pathway traced by the ebb and flow

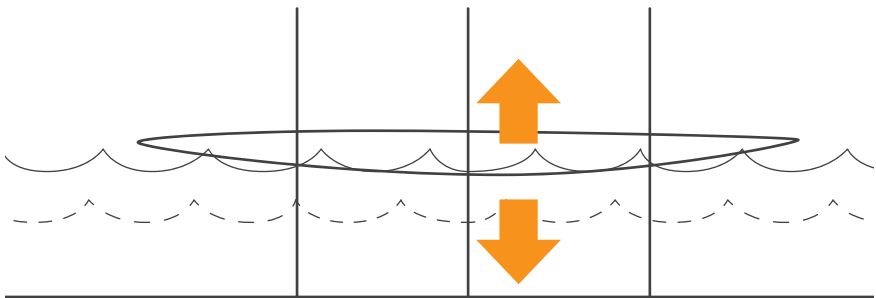

■ Site plan scale=1:5,000
Accumulation overlapping leaf-like forms, just like the yachts floating by the sea

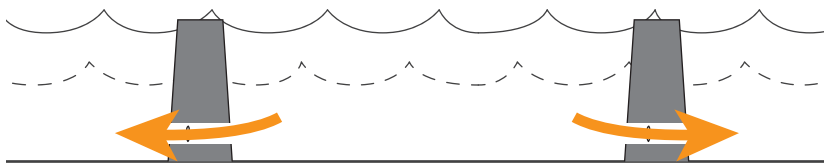

Silhouette form of the yacht

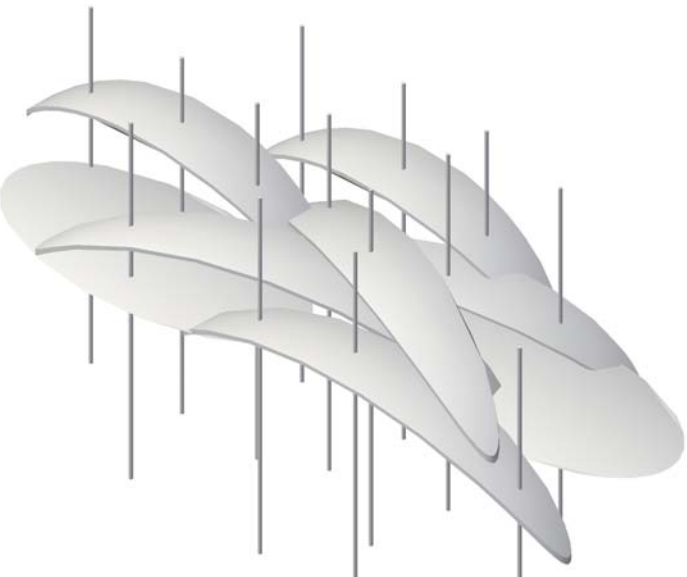

Power generates through the movement of tides

Power generates by the wind force and velocity

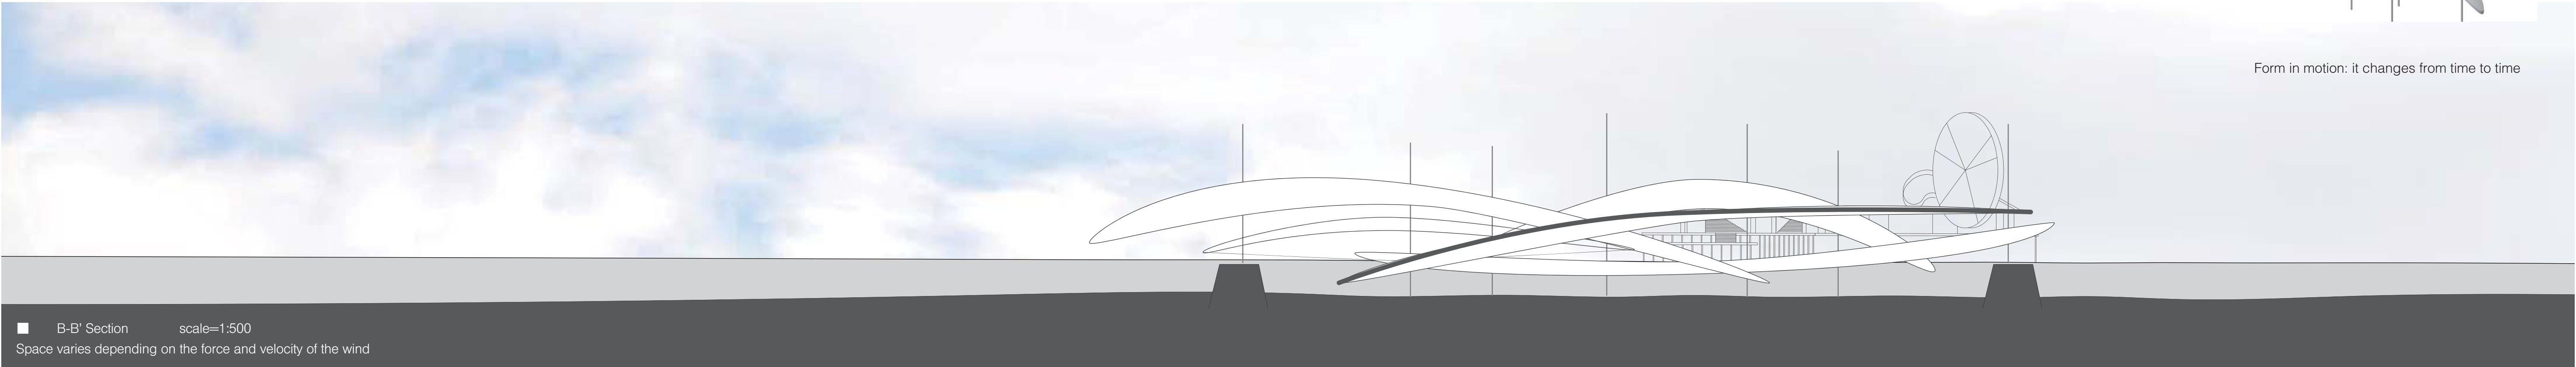

Tidal power pool

Form in motion: it changes from time to time

Open space by the sea constantly varies through time

■ B-B' Section scale=1:500
Space varies depending on the force and velocity of the wind
