#ENDOFTHEPIER

#CETACEAFOURTH

Captivating and exciting, hardworking and elegant, timely and timeless: this is power the Santa Monica way. Cetacea is a landmark embodying Santa Monica's commitment to the arts and the city's vision for a sustainable future.

True sustainability happens when the health of the planet becomes a concern embedded within the fabric of daily life. In constant interaction with the play of sea, light, and clouds, Cetacea's ethereal forms establish an enduring but dynamic fixture on the horizon, as vibrant and vital as the people of Santa Monica themselves.
